Program

February 28, 2017 | Vienna, Austria

Advanced anatomical cadaver workshop for tumorresection and handling of modular endoprostheses in orthopaedic oncology and endoprosthetic revision surgery

Faculty:

R. Windhager (Vienna, Austria)

B. Stöckl (Klagenfurt, Austria)

P. Funovics (Vienna, Austria)

J. Panotopoulos (Vienna, Austria)

09:00-09:10	Welcome (R. Windhager)
09:10-09:30	Surgical approaches from biopsy to resection (R. Windhager)
09:30-09:50	Distal femur resection and reconstruction (B. Stöckl)
09:50-11:00	Wet-lab
11:00-11:20	Coffee break
11:20-11:40	Proximal humerus resection and reconstruction (P. Funovics)
11:40-12:00	An injectable biocomposite for the treatment of benign bone lesions (M. Diefenbeck, Hamburg, Germany)
12:00-13:00	Lunch break
13:00-14:20	Wet-lab and Sawbone Workshop
14:20-14:40	Proximal femur resection and reconstruction (R. Windhager)
14:40-16:00	Wet-lab
16:00-16:20	Coffee break
16:20-16:40	Proximal tibia resection and reconstruction (J. Panotopoulos)
16:40-18:00	Wet-lab

Wet-lab: Cadaver dissection, implantation techniques, presentation of endoprosthetic systems including:

Johnson & Johnson Medical Products GmbH – LPS,

Waldemar Link GmbH & Co. KG - Megasystem C,

Stryker GmbH – MRS,

Cherry_MED Medical Solutions e.U. - Cerament

Zimmer Biomet - Compress/OSS, Humerus - SRS
